PROFESSIONAL SUMMARY

Software engineer and senior techno-functional consultant with 5+ years of experience in enterprise insurance solutions, data engineering and full-stack development. Proven track record delivering production monitoring systems, ERP platforms and e-commerce solutions. Passionate about scalable architectures, data pipelines and clean code. Holds a state engineering degree in Big Data & Cloud Computing.

PROFESSIONAL EXPERIENCE

DXC Technology Morocco — Technopolis, Sala Al Jadida

Jul 2021 – Present

Senior Techno-Functional Consultant

GDL · GraphTalk · BDOC · SQL · Batch Processing

Technical and functional development on DXC's enterprise insurance platform: data extraction pipelines, batch processing and CRM document management. Writes functional specs and handles production support.

DXC Technology Morocco — Technopolis, Sala Al Jadida

Feb 2020 · 6 months

End-of-Studies Internship (PFE)

ELK Stack · Open Distro for ES · Ansible AWX · Logstash

Designed and implemented a production monitoring system: log centralization, automated alerting and Kibana dashboards for DevOps teams.

CameraPack — Tiflet / Rabat

Jun – Aug 2019 · 2 months

Software Engineering Intern

JEE · Spring Boot · Angular · JHipster

Built a lightweight web-based ERP (inventory, procurement, reporting) and a company showcase website, full-stack.

Ministry of Equipment, Transport, Logistics & Water — Rabat

Jun 2018 · 1 month

Observation Internship

Java Android · SQLite · Google Sheets · Apps Script

Android app for daily monitoring of Morocco's major dams — field data entry and real-time visualisation.

Ministry of Equipment, Transport, Logistics & Water — Rabat

Jun 2017 · 1 month

BTS End-of-Studies Internship

VB.Net · MS Access

Desktop application for public procurement document management.

Provincial Delegation, Ministry of National Education — Khemisset

Aug 2016 · 1 month

Introductory Internship

VB6 · MS Access

Desktop application for scholarship file management for baccalaureate graduates.
